

CC Rental EZ Pass Program

As you probably know, NYC is soon going to be EZ Pass only at some bridges and tunnels (MTA crossings, see attached), no cash will be accepted. The only alternative at these crossings is a "bill by plate" process whereby the plate number is photographed and the owner of the vehicle (CC Rental) contacted and billed. The downside to this is length of time (weeks) it takes for CC Rental to get the toll bill. A lot of our customers are renting for a specific project and need totals for both rentals and tolls quickly. There is no question "bill by plate" is NOT a viable option.

There are other NYC bridges and tunnels (Port Authority crossings, see attached) where cash will be accepted but there will be significant discounts for EZ Pass equipped vehicles.

There is no question CC Rental had to make the move to install EZ Pass in all our rental vehicles. We are close to finishing the installation and have tested our billing software today (June 20). A lot of you have gotten a copy of an EZ Pass receipt already. We intend to process EZ Pass receipts six times a week.

There is going to be a short amount of time where some of our billing to customers will be based on "bill by plate" and the bills to you will arrive a few weeks after the rental. We apologize for this but we are at the mercy of NY Toll processing. The same will be true for some of the discounts offered by EZ Pass. Some of these discounts will not take effect for a couple of weeks. EZ Pass discounts only apply to the state of issue, our NY EZ Pass will not qualify for discounts on out of state transactions.

CC Rental has invested a lot of money to make this system work for everybody. We will continue to have processing costs for both EZ Pass and software support. For these reasons we are adding a fee of \$1.50 per transaction. Based on the savings offered by the EZ Pass program your overall toll bill for the year should go down.
